BRAILLE EDITION OF APH CATALOG OF MUSIC PUBLICATIONS

March 20, 1968

Since 1963, the Printing House has been able to offer a Braille edition of its CATALOG OF MUSIC PUBLICATIONS, and supplements. This has been made possible through the courtesy of the Division for the Blind and Physically Handicapped of the Library of Congress, which has underwritten the plate costs of the basic catalog and all supplements as they have been issued. Since information on the supplements are scattered throughout the various supplements themselves, and is therefore hard to find, a complete listing is given below:
